

REGULATORY EXAMS

All representatives must complete regulatory exams to meet legal obligations under the FAIS Act, with amendments affecting the RE exams. Requirements include passing the RE 5 exam, Product Specific Training, Class of Business Training, and Continuing Professional Development (CPD). **The RE 5 exam is a legislative requirement for FAIS representatives to demonstrate fitness and propriety.** Preparation programs, such as those offered by Cocciolino, including online learning or a 2-day workshop, are available to assist learners in preparing for the RE 5 exam. These programs are designed based on the exam's qualifying criteria and include mock exams.
